RE: DeFranco v. Wolfe, et al.
Civil Action No. 04-230E

Dear Mr. DeFranco:

Enclosed, please find a Declaration by Dr. Polmueller which we obtained pursuant to the Court's Order of August 24, 2006.

Sincerely,

A handwritten signature in cursive script, reading "Mary Lynch Friedline".

Mary Lynch Friedline
Senior Deputy Attorney General

DECLARATION OF E. POLMUELLER, M.D.

I, E. Polmueller M.D., declare under penalty of perjury that the following is true and correct to the best of my knowledge, information and belief:

1. I am the MHM Psychiatric Director for the Pennsylvania Department of Corrections. I have held this position with MHM Correctional Services Inc. for three years, and for several years prior to that under a different contractor.

2. Pursuant to an Order issued by the Court in this case, the following is a transcription of my 4/30/04 Progress note (in SOAP format) with respect to Inmate DeFranco, CZ 3518:

S. (subjective)

anger and impulsivity and panic symptoms in control with benzodiazepine use once per day with three doses available, no documented substance history, out of hole two years, had tried Sinequan, Paxil, Elavil, Prozac, lithium, double celled

0. (objective)

politely antisocial, no anxiety symptoms

A. (assessment)

panic by history
clear antisocial personality disorder

P. (plan)

leave patient on benzodiazepine with current use

3. With respect to this progress note, I would offer the following comments:

- a) “ double celled “ in “S”, documents what inmate told me, not any recommendation or endorsement on my part, for single cell status;
- b) anxiety disorders are by their nature inhibitory and avoidant, not dangerous to self or others;
- c) the majority of inmates share the diagnosis of antisocial personality disorder;
- d) being “ out of the hole for two years” presents a strong argument for lack of dangerousness;
- e) psychiatric recommendation for single cell status should be based on demonstration or expectation of dangerous behavior derivative of a serious mental illness;
- f) characterizing this inmate’s presentation as a serious mental illness would be questionable.

I declare under penalty of perjury that the foregoing is true and correct, per 28

U.S.C. § 1746.

Date:

9-1-06

Eugen Polmueller
